

Spectralink Versity 95/96 Series Smartphones

Call Server Interoperability

The table below lists the call servers that have been tested as interoperable with the Spectralink Versity enterprise smartphones. Only products listed in the table have been tested for compatibility and acceptable performance with Spectralink Versity 9540, 9553, 9640, and 9653 models. Interoperability documents are found on the [Spectralink 95, 96-Series Support](#) page.

Validated or Certified Products

Spectralink enterprise wireless mobility solutions are validated or certified to work on the following call servers and UC platforms.
