

Service Codes

Spectralink Butterfly, 75-, 76- and 77- Handset Series

Not all codes are supported on all handsets.

Some of the given codes might not be active as the level of service codes implemented is depending on the hardware & software status of the handset.

To enter a Service Code - enter the requested code and press "on hook".

99945 Enables a feature for use on some alien DECT infrastructures: If the feature is enabled and the incoming call has a CLIP number and no CLIP name, and a text is received shortly after then this text will be added to the CLIP information (Call list). It also enables a feature for use on some alien DECT infrastructures: If the ringer cadence is short, the ringer tone is not shortened.
