

FCC Compliance Statement

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions: 1) This device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This portable device with its antenna complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. To maintain compliance this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FCC SAR

Compliance for body-worn operation is based on a separation distance of 10 mm between the unit and the human body. Carry this device at least 10 mm away from your body to ensure RF exposure level compliant or lower to the reported level. To support body-worn operation, choose the belt clips or holsters, which do not contain metallic components, to maintain a separation of 10 mm between this device and your body.

RF exposure compliance with any body-worn accessory which contains metal, was not tested and certified, and use of such body-worn accessory should be avoided.

Outdoor Use Restriction

This product is intended for indoor use.

FCC regulations prohibit outdoor use within the 5.15-5.25 GHz band.

There are additional outdoor usage restrictions that vary with other regions. For additional information, contact Spectralink.

California Energy Commission (CEC)

At the time of manufacture, this device meets or exceeds the requirements established by the California Energy Commission Title 20 regulations for Energy Efficient Appliances effective January 1, 2019.

Australia Regulatory Statement

Warning: The user should be aware that, under certain operating conditions, the handset earpiece may retain small metallic objects. If this occurs, these objects should be removed before using the handset.

Morocco

At the time of manufacture, this device meets or exceeds the EMC & LVD requirements established by the Morocco MCINET: Le Ministère de l'Industrie, du Commerce, de l'Investissement et de l'Economie Numérique. April 12, 2016.

Russia (EAEU)

At the time of manufacture, this device meets or exceeds the requirements established by the Russian Government for EAC & FAC.

HAC

This equipment is Hearing Aid Compatible (HAC).

A handset is considered hearing aid-compatible for acoustic coupling if it meets a rating of M3 or M4, under the ANSI C63.19. A handset is considered hearing aid-compatible for inductive coupling if it meets a rating of T3 or T4, under ANSI C63.19. (Not all hearing-aids have telecoil inside.) This device was tested according to ANSI C63.19 2011 version, and this meets the T3/M4 rating.

Cet équipement est compatible avec les appareils auditifs

Un téléphone est considéré comme compatible avec les appareils auditifs par couplage acoustique s'il répond à une classification M3 ou M4, sous la norme ANSI C63.19. Un téléphone est considéré comme compatible avec les appareils auditifs par couplage inductif s'il répond à la classification T3 ou T4, selon la norme ANSI C63.19. (Tous les appareils auditifs ne sont pas équipés d'une bobine téléphonique) Ce téléphone a été testé selon la version ANSI C63.19 2011, ce qui correspond à la classification T3 / M4.

Do Not Modify

The user should not make changes or modifications not expressly approved by Spectralink® Corporation. Any such changes could void the user's authority to operate the equipment.

Ne Pas Modifier

L'utilisateur ne doit pas faire de modifications non expressément approuvées par Spectralink® Corporation. Tout changement de ce type pourrait annuler l'autorité de l'utilisateur à utiliser l'équipement.

Battery Replacement and Disposal

Dispose of used batteries according to these instructions. Do not throw away the Battery Pack with your domestic waste. Take used Battery Packs to an appropriate collection point for recycling or send them back to your supplier or servicing agent.

Use only genuine Spectralink batteries in Spectralink devices.

CAUTION: RISK OF EXPLOSION

Incorrect disposal of a BATTERY into fire or a hot oven, or mechanically crushing or cutting of a BATTERY, can result in an EXPLOSION. When the BATTERY is exposed to an extremely high temperature environment an EXPLOSION or the leakage of flammable liquid or gas can result. A BATTERY subjected to extremely low air pressure may result in an EXPLOSION or the leakage of flammable liquid or gas.

ATTENTION : RISQUE D'EXPLOSION

La mise au rebut incorrecte d'une BATTERIE dans un feu ou un four chaud, ou l'écrasement ou découpage d'une BATTERIE peut entraîner une EXPLOSION. Lorsque la BATTERIE est exposée à une température extrêmement élevée, il peut en résulter une EXPLOSION ou une fuite de liquide ou de gaz inflammable. Une batterie soumise à une pression d'air extrêmement basse peut provoquer une EXPLOSION ou une fuite de liquide ou de gaz inflammable.

CAUTION: BATTERY REPLACEMENT

Replace batteries only with genuine Spectralink battery packs. Replacement of a BATTERY with an incorrect type can defeat SAFEGUARDS provided with Spectralink batteries. (Some off-brand lithium BATTERY types do not provide sufficient safeguards which may result in malfunction to the device or injury to the user).

Battery storage maximum temperature 40°C or 104°F.

ATTENTION : REMPLACEMENT DE LA BATTERIE

Remplacez les batteries uniquement par de véritables batteries Spectralink. Le remplacement d'une batterie par un type incorrect peut compromettre les dispositifs de protections inclus dans les batteries Spectralink. (Certains types de batteries au lithium hors-marque ne fournissent pas des mesures de protection suffisantes pouvant entraîner un dysfonctionnement de l'appareil ou des blessures pour l'utilisateur). La température maximale de stockage de la batterie est 40 ° C ou 104 ° F.

PROTECT YOUR HEARING

To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your phone near your ear while the loudspeaker is in use.

PROTECTION AUDITIVE

Pour éviter tout dommage auditif, n'écoutez pas à un volume élevé pendant des périodes prolongées. Soyez prudent lorsque vous tenez votre téléphone près des oreilles lorsque le haut-parleur est utilisé.

Spectralink Versity
Model number 95xx/96xx
Regulatory Information

Industry Canada (IC) Notice

IC This device complies with RSS-210 of Industry Canada. Operation is subject to the following two conditions:
1) This device may not cause interference, and
2) this device must accept any interference, including interference that may cause undesired operation of this device. Privacy of communications may not be ensured when using this telephone.

Certification Number IC: 2128B-96XX for 9653 & 9640

Certification Number IC: 2128B-95XX for 9553 & 9540

This product is intended for indoor use. Industry Canada regulations prohibit outdoor use within the 5.15-5.25 GHz band. There are additional outdoor usage restrictions that vary with other regions.

For additional information, contact Spectralink.

Avis d'Industrie Canada (IC)

Cet appareil est conforme à la norme RSS-210 d'Industrie Canada. Le fonctionnement est soumis aux deux conditions suivantes :

- 1) Cet appareil ne doit pas causer d'interférences, et
- 2) cet appareil doit accepter toute interférence, y compris les interférences pouvant entraîner un fonctionnement indésirable de cet appareil. La confidentialité des communications peut ne pas être assurée lors de l'utilisation de ce téléphone.

Numéro de certification IC: 2128B-96XX for 9653 & 9640

Numéro de certification IC: 2128B-95XX for 9553 & 9540

Ce produit est destiné à une utilisation en intérieur. La réglementation d'Industrie Canada interdit l'utilisation à l'extérieur dans la bande 5.15-5.25 GHz. Il existe d'autres restrictions d'utilisation extérieure qui varient selon les autres régions.

Pour plus d'informations, contactez Spectralink.

ISED Canada Radiation Exposure Statement

This EUT is compliance with SAR for general population/uncontrolled exposure limits in RSS-102 and had been tested in accordance with the measurement methods and procedures specified in IEEE 1528 and IEC 62209.

This equipment should be installed and operated with minimum distance 10mm between the radiator and your body. This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

Déclaration ISDE Canada sur l'exposition aux rayonnements

Cet appareil est conforme aux normes SAR pour les limites d'exposition par le grand public en environnement non-contrôlés, voir CNR-102, et a été testé conformément aux méthodes et procédures de mesure spécifiées dans les normes IEEE 1528 et IEC 62209.

Cet équipement doit être installé et utilisé à une distance minimale de 10 mm entre l'antenne et votre corps. Cet appareil et son (ses) antenne (s) ne doivent pas être colocalisés ou fonctionner conjointement avec une autre antenne ou un autre émetteur.

NRCAN

Rating: 5V/3A 15w, 9V/2A 18W, 12V/1.5A 18W

EU Compliance Statement

CE Hereby, Spectralink Corporation declares that the products in this manual are in compliance with Directives 2014/53/EU and 2011/65/EU. The full text of the EU declaration of conformity is available at the following internet address: <http://support.spectralink.com/DoC>.

Information/информация/informacije/informace/informatie/teave/tiedot/Informationen/ πληροφορίες/információ/upplýsingar/faisnéis/informazioni/informacja/informacija/informazzjoni/informasjon/informacja/informação/informații/informácie/información <http://support.spectralink.com>

WEEE

The WEEE Marking on this equipment indicates that the product must not be disposed of with unsorted waste, but must be collected separately.

Operating Frequency Band

Spectralink declares that products in this manual operate at 2.4GHz/5GHz frequency band.

All wireless devices may be susceptible to interference, which could affect performance.

Spectralink is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void your authority to operate the equipment.

Operating Transmit Power

Spectralink declares that products in this manual operate with maximum Powers as shown below:

Cell (96XX models only)

- GSM 850/900: 34 dBm
- GSM 1800/1900: 30.5dBm
- UMTS 850/900/1700/1900/2100:24.5 dBm
- LTE B1/2/3/4/5/7/8/12/13/20/25/26/28/38/66: 24.5 dBm

Wi-Fi

- 802.11bgn: 2.4GHz band <19dBm
- 802.11a/n/ac: 5GHz band <16 dBm (<15 dBm for 9640)
- WIFI MIMO
- 802.11n: 2.4GHz band <18 dBm
- 802.11a/n/ac: 5GHz band <19.5 dBm

Other

- Bluetooth: < 10 dBm
- NFC 13.56 MHz: < 25 dBuA/m at 10m

Specific Absorption Rate

The exposure guidelines for mobile devices employ a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit stated in the ICNIRP guidelines is 2.0 Watts/kilogram (W/kg), averaged over ten grams of tissue. Tests for SAR are conducted using standard operating positions, with the device transmitting at its highest certified power level in all tested frequency bands. The actual SAR level of an operating device can be below the maximum value because the device is designed to use only the power required to reach the network. That amount changes depending on a number of factors, such as how close you are to a network base station. This phone meets RF exposure guidelines when used either in the normal use position against the ear or when positioned at least 5 mm away from the body. When a carry case, belt clip or holder is used for body-worn operation, it should not contain metal, and should position the phone at the above-stated distance away from your body.

In order to transmit data files or messages, this device requires a good quality connection to the network. In some cases, transmission of data files or messages may be delayed until such a connection is available. Ensure that the above separation distance instructions are followed until the transmission is completed.

Exposure to Radio Frequency Energy

Information is available online at <http://support.spectralink.com>.

SAR information is on file with the FCC at <http://transition.fcc.gov/oet/ea/fccid/> under FCC ID: IYG96XX for 9653 & 9640.
FCC ID: IYG95XX for 9553 & 9540.

EU SAR peak values (in W/kg):

9653-head: 0.58 W/Kg W/kg Head Tissue
9653-body: 1.19 W/Kg W/kg Body Tissue
9640-head: 0.58 W/Kg W/kg Head Tissue
9640-body: 1.19 W/Kg W/kg Body Tissue
9553-head: 0.35 W/Kg W/kg Head Tissue
9553-body: 0.57 W/Kg W/kg Body Tissue
9540-head: 0.34 W/Kg W/kg Head Tissue
9540-body: 0.57 W/Kg W/kg Body Tissue

FCC SAR peak values (in W/kg):

9653-head: 1.08 W/kg Head Tissue
9653-body: 0.87 W/kg Body Tissue
9640-head: 0.92 W/kg Head Tissue
9640-body: 0.87 W/kg Body Tissue
9553-head: 0.73 W/kg Head Tissue
9553-body: 0.36 W/kg Body Tissue
9540-head: 0.91 W/kg Head Tissue
9540-body: 0.54 W/kg Body Tissue
