

Spectralink Versity Smartphone Family

## Scanner Trigger Handle Operation

This Quick Start Guide explains how to set up and operate the Spectralink 92 Series Scanner Trigger Handle.

### System Affected

Versity 9253 Series smartphones by Spectralink.

### Description

The Scanner Trigger Handle (SCH) for the 9253 Series smartphone is designed to facilitate speedy and ergonomic scanner action. The SCH provides a manual method for initiating a capture of a barcode or QR code into an active data field of an app which displays on the smartphone. It is designed for use in environments that require heavy use of scanning operations.

**Caution: The barcode reader LED**

The LED light is not a laser but is very bright. Do not stare at it or shine it into the eyes.

**Attention: le lecteur de code-barres à DEL**

La lumière à DEL n'est pas un laser mais elle est très brillante. Ne la fixez pas et ne la dirigez pas vers les yeux.

## Setup

- 1 With the display facing up, insert the USB end of the Versity 9253 smartphone into the SCH as shown above.
- 2 Snap the SCH into place by pushing down on the scanner end (receiver area) of the smartphone. You will hear a click when it snaps in place.

### Note

Operating temperature range is 0° to 60° C.

## Operation

- 1 Activate the application that you wish to use to record the capture and place the cursor into the text field where the capture should display.
- 2 With the active text window showing on the smartphone's screen, grasp the handle with your left or right hand and point the smartphone scanner toward a barcode/QR code.
- 3 Squeeze the trigger with your index finger.
- 4 The white light illuminates the barcode area and a green light focuses on the barcode being scanned. Focus the light by moving the smartphone slightly closer or further away. Correct the focus as needed.
- 5 The lights stay on until you hear a beep that indicates the read is successful and then the lights turn off.
- 6 The barcode will be decoded and displays in the text field.

### Note: See the Spectralink Versity Family Support Documents

For complete information about Barcode operation, please consult the Spectralink Versity Family User Guide.

For complete information about the configuration and use of the Barcode application, please consult the Spectralink Versity Family Applications Administration Guide.
