<b>Hardware Revisions:</b>	All	<b>Status:</b>	Approved
<b>Product Type:</b>	NetLink Wireless Telephones	<b>Revision:</b>	A
<b>Access Level:</b>	General		

---

### Description

After entering the final character of the WEP key, if the # (right arrow key) is pressed it will overwrite the last character. The LCD will continue to show the correct key, but the phone will not be able to associate with the access point.

### Resolution

Do not press the # (right arrow key) key after entering the final character of the WEP key.
