

Spectralink 84-Series

Call Server Interoperability

The tables below list the call servers that have been tested as interoperable with the Spectralink 84-Series handsets. Only products listed in the table have been tested for compatibility and acceptable performance with Spectralink 8440/8450/8452 and 8441/8453. Interoperability documents are found on the [Spectralink 84-Series Support](#) page.

Validated or Certified Products

Spectralink enterprise wireless mobility solutions are validated or certified to work on the following call servers and UC platforms. Spectralink recommends: If you do not see your PBX on this list please call as we may have field experience with it.

Admin Tip: Supported software versions

All software is subject to significant change from version to version.

Please call Spectralink for additional information including field experience with newer releases.
